

MEKSMART TECHNOLOGY SOLUTION

STRATEGY MEKSMART

VISION

- » Become a multinational enterprise in the research and development of breakthrough technology
- » Optimization in Supply chain including Warehouse, Transportation.

MISSION

- » Bringing ease, convenience, and growth in breakthrough technology applications to individuals and businesses.

STRATEGY

- » Think Globalization, Do localization

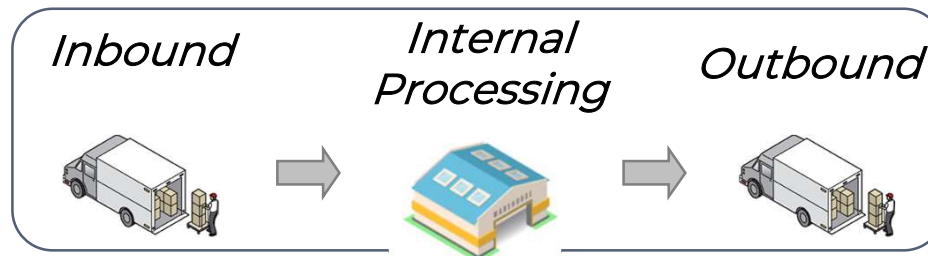

BUSINESS PRESSURES

Just-in-Time Delivery

- » How can I improve the speed of warehouse operations?
- » How do I integrate operations to reduce order processing time?

Guaranteed Availability

- » How can I improve order promise accuracy?
- » How do I create a global view of inventory?

One Size Fits One

- » How can I manage SKU proliferation?
- » How do I ensure labeling compliance?

Lowest Total Cost

- » Where can I reduce inventory while maintaining high fill rates?
- » How do I improve labor efficiency?

MEKSMART WAREHOUSE MANAGEMENT SYSTEM

MEKSMART WAREHOUSE MANAGEMENT SYSTEM

WMS KEY FEATURES

01

End-to-end Visibility & Business Intelligence

04

Access data anywhere at anytime

07

Modular system for multiple integrations

02

Comprehensive Dashboards to track KPI

05

Flexible workflows & advanced automation

08

Cycle count scheduling & inventory management

03

Alerts to quickly react at emergencies

06

Dedicated EDI integration Full SOA infrastructure

09

License plate tracking inbound and outbound

WMS KEY FEATURES

10

Customized process to handle commodities

13

Algorithms to optimize the handling activities

11

QA and non-conformance management.

14

Integrated Value Added Services

12

Flexible receiving & kitting processes

15

Work Orders management & invoicing

DASHBOARDS & REPORTING

Task-driven dashboards providing visibility, KPI, warehouse capacity & alerts

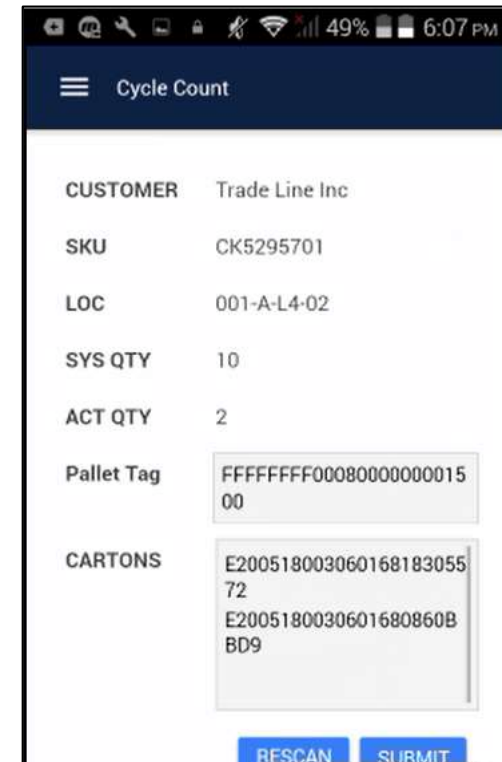

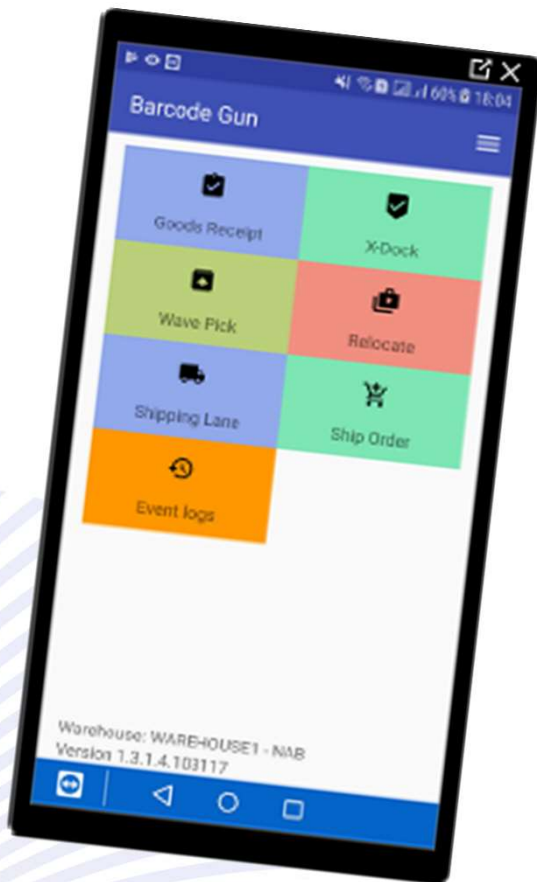

Drag & drop customization & report generation to excel or pdf

Auto emails for alerts & reports and real-time data

Import templates & 2d view of warehouse layout

RF & MOBILE APPLICATION FOR WMS

BENEFIT DRIVERS: WAREHOUSE MANAGEMENT

Value Bucket	Benefit Driver	Meksmart Impact
Core WMS benefits (Total Warehouse Cost Range 5-15%)		
Reduce labor cost	<ul style="list-style-type: none"> Decrease data entry update via barcode or RFID, paperless operation Reduce direct cost labor via digital operation 	<ul style="list-style-type: none"> Reduce direct labor cost from 5%-15%
Reduce expense	<ul style="list-style-type: none"> Reduce error rate and penalties due to fewer charge back/fines Ensure accurate product tracking and trace with configure full count, cycle counting. Planning loading customer via optimize routing in warehouse via combine more order via wave pick or batch picking. Improve more operation control damage and shrink Prevent operation and estimate via event trigger 	<ul style="list-style-type: none"> Reduce storage and handling costs 5-15%
Cost avoidance	<ul style="list-style-type: none"> Allocate resource base on realize operation Collect detail data help more improvement 	<ul style="list-style-type: none"> Improve asset and space utilization Decrease equipment operation cost
Reduce inventory	<ul style="list-style-type: none"> Measure detail safety stock and replenishment Proactive planning 	<ul style="list-style-type: none"> Increase productivity from 10~20% Inventory accuracy 97% Reduce inventory up to 10%

Revenue lift		<ul style="list-style-type: none"> Reduce order cycle time by 5-5%

WHY USE MEK- WMS

Expertise	Full Integration	Technology	Flexibility	Price / Value Ratio	ROI
<p>WMS is a solution designed by Warehouse Managers for Warehousing Operations. Therefore, we truly do understand Supply Chain and Logistics. We leverage this knowledge to ensure that we are able to offer a solution that addresses the real issues that afflict your business needs today and those that the future may hold.</p>	<p>All aspects of WMS can be fully integrated to 3rd party applications. Everything is needed to gain greater control over your enterprise within a single environment.</p>	<p>WMS's Cloud technology allows you to view, analyze, report and maintain data according to your specifications in real-time from anywhere at anytime. We assure 98.9% uptime thus ensuring you never stop receiving and you never stop shipping.</p>	<p>No one warehouse is the same, this is why WMS360's architecture allows you to Configure, customize and personalize the interfaces to suit business requirements and preferences.</p>	<p>With WMS, the entire solution, including all existing and future functionality is yours at no additional cost. There is no need to pay additional fees for new features, now or ever. WMS is a complete solution covering every aspect from Purchase Order Management, WMS, EDI Gateway, and a Customer Portal. Acquiring MEK-WMS means you get everything.</p>	<p>WMS streamlines your business processes, simplifies tasks, provides relevant data on demand, and increases overall productivity, positively impacting your bottom line, and providing real ROI.</p>

Transportation Management System (TMS)

KEY BENEFITS

AUTOMATION/ INTEGRATION

Data accuracy/visibility
utilizing mobility
dynamic Proof of
Delivery

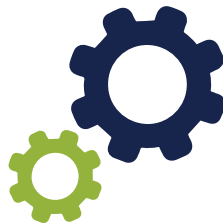

SCALABLE & MODULAR

Easy to add products,
customers, drivers, and
trucks to meet demand

FLEXIBLE

Tested in multiple
industries and product
delivery scenarios

USER FRIENDLY

SaaS platform, quick
deployment,
configurable
workflows

REAL-TIME

All processes
provide real-time
visibility across the
entire application

LAST MILE DELIVERY CHALLENGES

- » Require Complete Delivery Transparency – Internally and Externally
- » Need More Efficient Communications at All Points in the Process
- » Data and Reporting Collection for Improved Operations
- » Manage Customer Expectations

STAKEHOLDER NEEDS

MANAGEMENT Needs:

- Monitor key metrics
- Analyze Performance
- Improve Efficiencies
- Customer Feedback

DRIVERS Needs:

- One Tap, One Swipe Operation
- Up-to-date Delivery Details
- Proof of Delivery

CUSTOMERS Needs:

- Delivery Transparency
- Tracking Information
- Collaboration with Driver

ADMINISTRATION Needs:

- Billing and Payment Options
- Reports
- Document Management

DISPATCHERS Needs:

- Optimized Routes
- Fleet Management
 - Driver Details

KEEP IT SIMPLE

End-to-End Delivery Management

- » Plan
- » Track
- » Report

TMS FEATURES

- Dispatch Dashboard
- Order Management
- Dynamic Route Optimization
- Fleet Management
- Mobile App for Drivers
- Billing
- Reporting
- Analytics

Dispatch Dashboard &
Order Management

Optimization

Mobile App
for Drivers

Billing &
Reporting

TMS BENEFITS

Data-Driven
Decision Making

Optimized
Resources

Developed by
SCM Experts

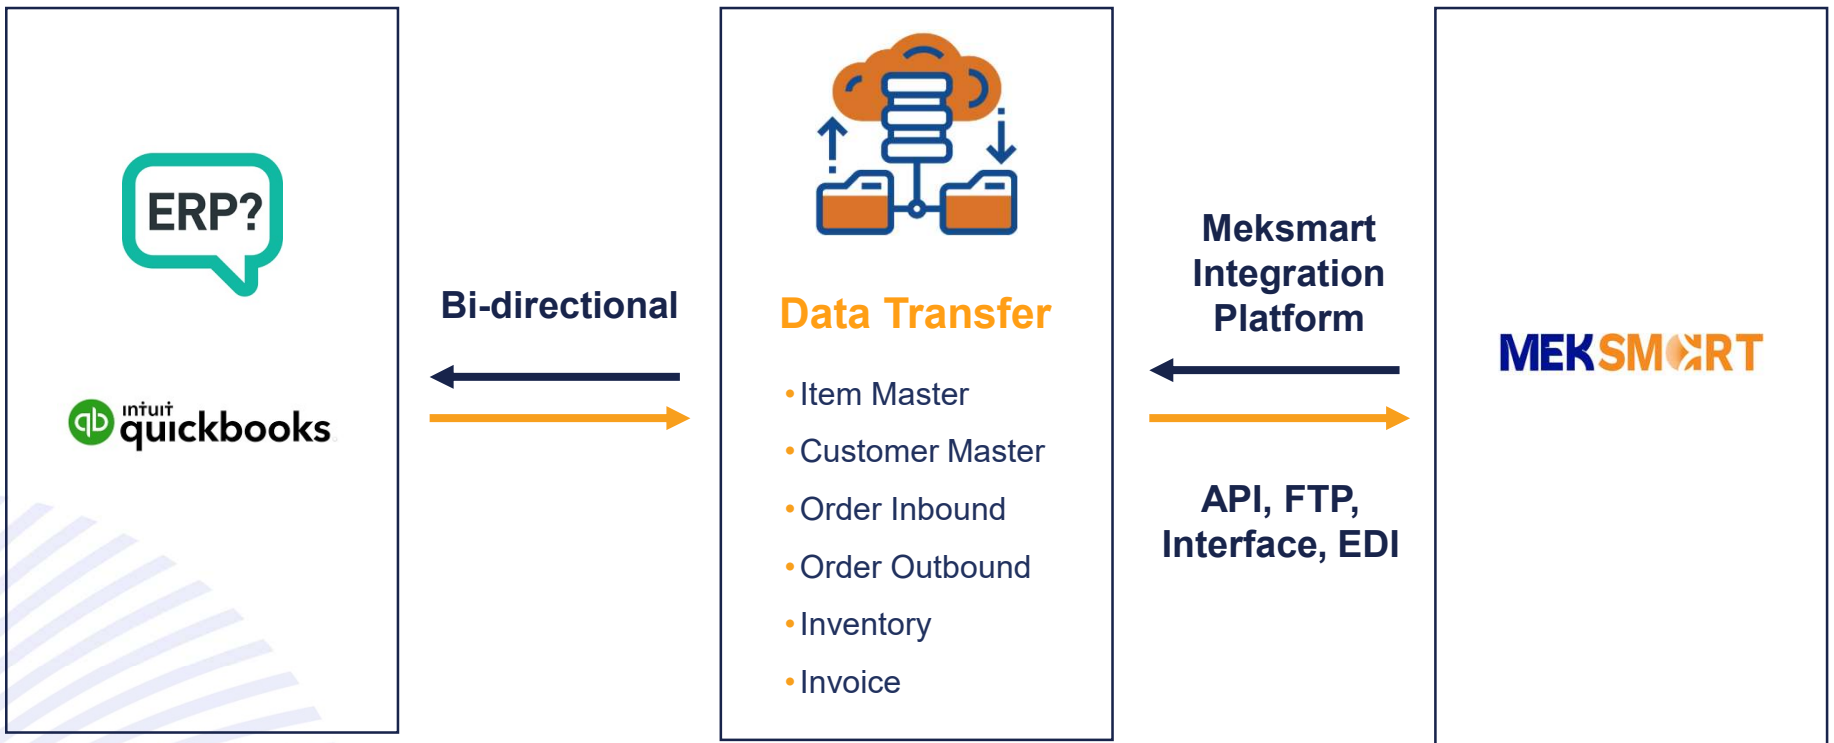

Connectivity Through
Collaboration

Intuitive and User
Friendly Software

3rd PARTY APPLICATION & MEKSMART INTEGRATION

SERVICES PORTFOLIO

Consulting

Business Process
Outsourcing

Nearshoring
Development

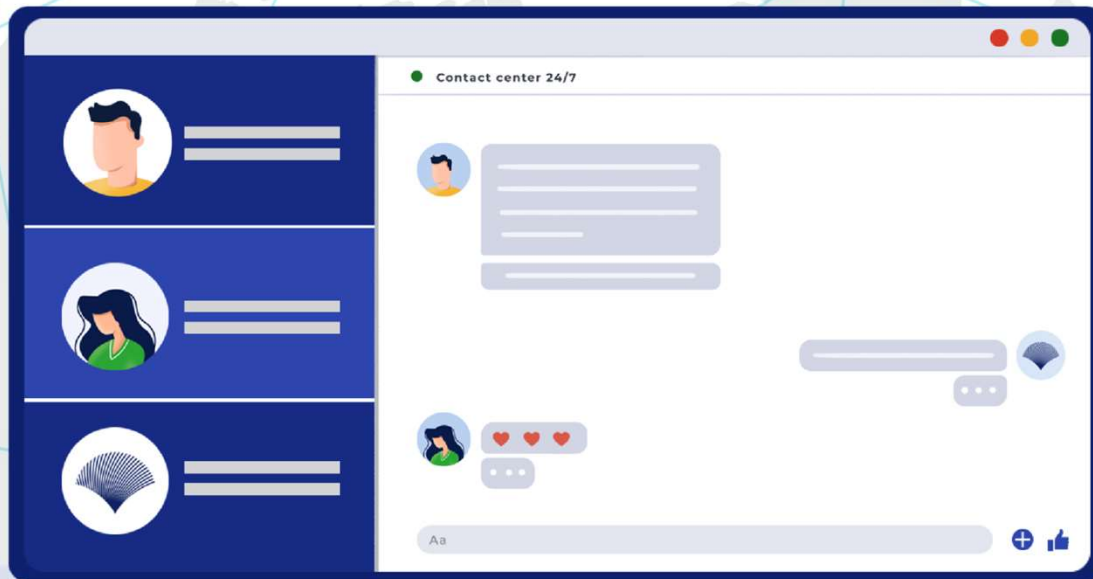

IT
Staffing

CUSTOMER SERVICE AND SUPPORT

- ◆ DIVERSE LANGUAGES
- ◆ DIVERSITY OF COMMUNICATION CHANNELS, SUPPORT
- ◆ TRAINING, SUPPLY FULL OPERATION DOCUMENTS
- ◆ CONTACT CENTER 24/7

WHAT IS OUR VALUE PROPOSITION?

PROVEN

Tested in multiple industries and in 3PL Warehouses

FLEXIBLE

SaaS platforms for quick customization & deployment

AUTOMATION/ INTEGRATION

EDI infor external & proprietary hardware integrations

**SUPPLY CHAIN
MANAGEMENT
SOLUTIONS TO
GROW WITH
YOUR BUSINESS**

MODULAR

Easy to integrate end-to-end features

BEST-IN-CLASS

Processes are optimized by SCM experts

REAL-TIME

All processes provide real-time visibility across the entire SCM
